

Dear Mr. Bilancio,

I would like to send a special thanks to you and the rest of the guys who brought the sports cars to our hospital. Our patients are major racing fans, whether it is watching cars on TV, video games, or just racing up and down the halls in their wheelchairs! What a treat for them to not only see the racecars but to have the opportunity to sit inside and experience what it feels like to be a racer. The girls were as interested as the boys and they did not hesitate at the chance to climb in the driver's seat!

I also want to thank you for the goodie bags you brought for the children. It was a fun and exciting day for all and your visit certainly helped make the patients day much more interesting while in the hospital!

Thank you and the team once again for the visit and hopefully we will see you again soon!

Sincerely,

Elaine Hardin CCLS, CTRS
